

# PRODUCTIVITY WORKSHOP: 6S IMPLEMENTATION

## COURSE OVERVIEW

All companies are facing increasing competition, rising costs, and an increasingly demanding customer base. It is essential that an effective productivity and quality improvement strategy be in place for the company to succeed in the market. Although very basic, the 6S systematic housekeeping system will help build a solid foundation for other improvement activities. Proper implementation of 6S also helps transform the workforce and build a culture of responsibility and improvement. Unfortunately, many Malaysian businesses pay only a cursory attention to systematic housekeeping, resulting in a waste of scarce resources. This training adopts a hand-on workshop approach so that a certain level of skill transfer happens during the training. An implementation kit (Red Tag, Checklist, and Master Plan) is provided so that trainees can jump-start their implementation process.

## FACILITATOR

**Mr. Muhsin Ahamed** has been providing training and consultancy for numerous companies through FMM for the past 15 years. He is also a part-time lecturer at the International Islamic University Malaysia, teaching topics on quality assurance and quality control. Prior to 1996, before affiliating himself to FMM, he was with Motorola, Seagate, B. Braun and Likom working in manufacturing and human resource development areas. He obtained his Bachelor of Science, majoring in Chemistry in 1982. Due to interest and professional requirements, he pursued certificates in computer programming, electronics engineering, management and HRD. In line with the principle of life long learning, he is working towards his doctorate in quality engineering at Universiti Teknikal Melaka. He is expected to graduate in the next couple of years. Muhsin has hands-on experience in implementing various modern manufacturing and quality control techniques such as QCC, JIT, SCM, GT Cells and 5S Housekeeping. As a Human Resource Development Manager, he has designed, developed and implemented various training programmes in Management, Supervisory, Quality Control and Manufacturing Technology. As an individual who has hands-on experience in manufacturing and also training and development function, Muhsin brings with him not only a professional training approach but also real life practical tips on implementation of the ideas.

## OBJECTIVES

- Explain each of the 6S in detail
- Explain three system for Seiri
- Explain the seven principles of Seiton
- Prepare a complete Seiso schedule
