**FMM KEDAH/PERLIS BRIEFING ON ENDORSEMENT OF NON-PREFERENTIAL
CERTIFICATE OF ORIGIN (NPCO)**

29 January 2026 (Thursday) 10.00 am – 12.00 pm Zoom via Zoom Online

With global trade becoming increasingly regulated, more countries now require importers to present a Certificate of Origin (CO) to verify the source of their goods. As a result, it is common for Letters of Credit (LC) and business contracts to stipulate that exporters must obtain a CO endorsed by a recognised trade association. Non-compliance with this requirement may lead to delays in payment or complications with Customs clearance.

As a proud member of both the National Chamber of Commerce in Malaysia and the International Chamber of Commerce in Paris, the Federation of Malaysian Manufacturing (FMM) has been authorised by the Ministry of International Trade and Industry (MITI) to issue Non-Preferential Certificates of Origin (NPCOs) since 1982. Over the years, NPCOs issued by FMM have earned wide recognition and trust, making them acceptable to authorities in many countries.

To support exporters and importers in navigating these requirements, the FMM Kedah/Perlis Branch will be organising a special briefing session. This programme is designed to provide practical guidance on NPCO applications, while also creating a platform for participants to share experiences and discuss common challenges.

Key Highlights

- Clear explanation of rules and procedures for endorsement
- Guidance on the importance of accurate declarations by exporters when preparing NPCOs

Who Should Attend

This session is ideal for:

- Staff directly involved in preparing NPCOs (e.g. shipping clerks, executives, administrative assistants)
- Senior management and professionals in logistics, export, shipping, purchasing, and sales who oversee export and import activities
